at Sprotter airfield were in about the same condition as during the war. Since the information on the location of the hangers, that installations and barracks wildings is correct, the report is mercally believed to be credible. The present report does not mention the construction of a second renvar north of the old renvay, which was previously reported.

In present report does not mention the construction of a second renvar north of the old renvay, which was previously reported.

In present, supports the assumption that the field is occupied by the fighter regiments and an air transport regiment.
